

Gravity

Josh Turner

I've got my share of scars on those ol' monkey bars
Every time I'd hit the ground
On that long dirt road my bike lost control
Once again I was fallin' down
Every time I'd try to fly, there's a force I can't deny
Gravity
Grew to be six foot one, depended on no one
Yeah, I was my ol' man
Invincible and strong until you came along
Touched me with your gentle hand
When I look into your eyes, there's a force I can't deny
Gravity

Well, I never really liked it much, always left me all scraped up
Never really saw it as a good thing
Changes tides out on the sea, pulled your body close to me
First time I ain't been afraid to fall
Don't guess it's so bad after all
Gravity

Well, I never really liked it much, always left me all scraped up
Never really saw it as a good thing
Changes tides out on the sea, pulled your body close to me
First time I ain't been afraid to fall
Don't guess it's so bad after all
Gravity, gravity, gravity
