

Only Love

Groove Coverage

[Verse 1]

My friends do always tell me that they see you drop the top,
got a girl in every city flirting all around the clock. Oh baby's catching Junglefever Junglefever's catching you,
shouldn't try to tell me lies rather come out with the blues. I got a feeling baby I lose control you cut my heart in
pieces you crush my soul.

I got a passion baby I lose control you rip my heart in pieces you crush my soul. [Verse 2]

My man is creeping slowly day by day he's knocking boots,
magnatising all the ladys, will I pick my gun and shoot. Oh babys playing with my warning with my heart you
shouldn't play,

cause I'm living for the moment so I'm leaving you today. [Refrain]

You can go you can walk you can run you can hide away,
then you'll hear me say, it's only love. All the time that I cry that I die that I lost in you,
I'd always trust in you, it's only love. [Bridge] When I feel so bad when I feel so sad I'm longing,
at the time we had the time I can't forget
