Perfect Bliss

Bellefire

I think they call it love
There's nothing to be scared about
Believe me
Ain't nothing we can do
Just let it be a part of you
And feel it
I wanna let you know
I'll promise, I'll promise
To never let you go
You know, you know
We can make it good
We can make it right
We can make the shadows turn to light
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss
We don't need to hurt
We don't need the pain
We can be the sun behind the rain
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss
You're scared it's gonna change
You say you need a guarantee
Just leave it
You'll look but you won't find
Don't you know that love is blind
Just feel it
I wanna let you know
I'll promise, I'll promise
To never let you go
You know, you know
We can make it good

We can make it right
We can make the shadows turn to light
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss

We don't need to hurt
We don't need the pain
We can be the sun behind the rain
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss
It'z A-Z, it's chemistry, it's meant to be
It's everything, it's all we need
Just let it be!
I wanna let you know
I'll promise, I'll promise
To never let you go
You know, you know
We can make it good
We can make it right
We can make the shadows turn to light
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss
We don't need to hurt
We don't need the pain
We can be the sun behind the rain
Boy, when it feels like this
When it feels like this
It's some kind of perfect bliss
Some kind of love
Some kind of feeling
Some kind of miracle
Yeah, it's some kind of perfect bliss
