

# Fairytale

Trisha Yearwood

I love Cinderella  
'Cause every time that it ends  
Somebody gets a fella  
Time and again  
And the moral of the story is  
For everyone there's a love that fits But it was all  
Nothing but a fairytale  
Never comin' true  
It was all  
Nothing but a fairytale  
Until I found you And the one about the rainbow  
Every time it's told  
Some lucky old so and so  
Gets a promised pot of gold  
It's some reward for all our time  
Something sweet at the end of the line All of the same stories  
All of the same words  
All of them told to me  
In a way I've never heard  
By you
