Only For A While

Toploader

Once upon a time a child heard a line
That moved him
The child never grew, the line it came true
And all aroundInside dreams it stays
Dormant through these days
That follow, reminded only by the saddest lullaby
That was whisperedYou've got to lie down for a while
This will pass, it's only mild
You've got to ease your mind
For a whileI know I'll never be able to be free
From these memories
Have love in life the same, embrace it every day
That it comes to youYou've got to lie down for a while
This will pass, it's only mild
You've got to ease your mind
You've got to ease your mind
For a whileLie down for a while
This will pass, it's only mild
You've got to ease your mind
For a whileOnly for a while
Only for a while
Only for a while
