

Monster Rock N' Roll

Zombie Ghost Train

Dead night what's the score?
I don't need this anymore.
I've got a fever. I've got a fever tonight.
I'm gonna let the demons loose,
I'm gonna break disco's noose.
I'm gonna breakdown, breakdown tonight.

Dead, Dead that walks at night.
Running from the light.
Pillaging the frightened.
Got a call from the grave,
gonna go out and rattle the cage,
cause you don't know, know what's behind this mask.

Gonna go out and beat the boards,
cast and eyeball on some broads.
Gonna get hedonic, feelin' catanoic tonight.
We bite, feeding on the fright, here's to the night.
Deadbeat disco die.

Prowl the streets, this fever's eating me
I'm gonna party til I bleed, make this night free.
Shout, howling at the moon.
Shouting down the gloom,
gonna rock n' roll til I decay.

We pay our monster rock n' roll,
raise your glasses high,
on a trip to burn your soul. [x4]

I'm gonna burn your soul. [3]
