

Moonbeam

[Donna Lewis](#)

Crossing over
Forever changing
You're one of a kind
One in a whirlwind, divine Little moonbeam
Let me hold you
Little moonbeam
I ask you Let me in
Let me hide in this sweet thing
Let the willow walls enclose
Pulling my back straight
My feet straight And I can laugh
I can laugh out loud
Who would love me better? Little moonbeam
Encourage me
Little moonbeam
Pray for me Little moonbeam
Discover me
Little moonbeam
Let me in
Let me in The smallness
The smallness And taking a deep
Up in the blue zone
And I can't believe this
A joyous occasion I wanna to make it
Okay, I got a secret
Okay, I got a reason to be Little moonbeam
Let follow you
Little moonbeam
Take over Little angel ray
Little angel ray Little angel ray
Little angel ray
Little angel ray
Little angel ray
