

The Answer (feat. Big In Japan) [Baltimore]

UNKLE

Here we are
Burning up in our cars
And in our hearts
 Better days
Sleeping late with our headaches
 Perfect weather
 Congregate
Lay in wait for an answer
 They're still waiting
 Grit your teeth
The lucky taste as the day breaks
The blind are leading the blind
 Better
 Better days with a headache
 Perfect weather
 Xenon lights
Dots go dashing the highways
 Nothing's moving
 Radiates
Everything lasting for seconds
 Evaporated
 Lovers' lips
Drinking late at the station
 Smiling faces
 Coming clean
Wiping your face in whatever
 There's an answer
 Better
 Better days with a headache
 Perfect weather
