Loving You

Nina

It's been quite a while
It really kept me wanting you
You've got some style that's so unique
So beautiful, so warm, so deepStay with me tonight
Let me know the kind of love
That will remain forever be
A dream that you have made reality[chorus:]
Loving you, ohohoh
Is such an easy thing to do
No you'll never know
It's driving me crazy coz it grows and grows
But I won't let it stop
No I'm not giving up
Loving you, oh loving you
Just have been too muchIt's been quite a while
I never felt so easily
I wonder how you broke my style
Close to me I need you nowStay with me tonight
It's got to be just too much of
That could remain forever be
A dream that you had made reality[chorus]
