Girls Can Be Cruel

Infusion

Your honey smell makes me sick
Your lies are spreading so thick
Pins in your photos I stickYour lovers all gather 'round
They laugh and cheer at your sound
I'm all but lost in the crowdYou don't need me to survive
Too busy ruling your hide
You barely know I'm aliveYou're a stranger when we kiss
And if I cease to exist
Just cross me off your listJust one sip of your behavior
And my senses tell me danger
Just one sip of your behavior
And my senses tell me
I'm getting sick of your shitYou don't need me to survive
Too busy ruling your hide
You barely know I'm aliveYou're a stranger when we kiss
And if I cease to exist
Just cross me off your listYour lovers all gather 'round
They laugh and cheer at your sound
I'm all but lost in the crowdYour honey smell makes me sick
Your lies are spreading so thick
I'm getting sick of your shitJust one sip of your behavior
And my senses tell me danger
Just one sip of your behavior
And my senses tell me dangerJust one sip of your behavior
And my senses tell me danger
Just one sip of your behavior
And my senses tell me dangerJust one sip of your behavior
And my senses tell me danger
Just one sip of your behavior
And my senses tell me
I'm getting sick of your shitAnd my senses tell me
And my senses tell me
And my senses tell me
And my senses tell me danger
