My Neighbourhood

September

Yeah in my neighborhood,
We're all good, like we should,
It's understood that in my neighborhood,
It's okay, to be great,
Come let it blow your mind awayThrow out your uniform,
Don't need it anymore,
Don't be nobody 'cause somebody is all you can be,
So drop the act you play,
This ain't a masquerade,
'Cause where we going we'll just be you and me.Oh, yeah, yeahDon't care 'bout yesterday,
It's over anyway,
How come tomorrow's the place where everyone should be,
Forget the heat you took,
You'll get the right bits hooked,
'Cause where we going the streets will set you freeYeah in my neighborhood,
We're all good, like we should,
It's understood that in my neighborhood,
It's okay, to be great,
Come let it blow your mind awayThere ain't no other place,
That makes me feel this way,
It's always happening so no one's ever outside of town,
Turn off the city lights,
It won't get dark tonight,
'Cause everybody who's here came out to shineYeah in my neighborhood,
We're all good, like we should,
It's understood that in my neighborhood,
It's okay, to be great,
Come let it blow your mind awayI can see that you're feeling,
You believing 'cause it's in your face,
And you know that you need it,
It's nothing but a state agreed (nothing but a state agreed)Yeah in my neighborhood,
We're all good (were all good), like we should (like we should)
It's understood that in my neighborhood (it's understood)
It's okay (its okay), to be great (to be great)
Come let it blow your mind away (let it blow)Oh, yeah heyYeah in my neighborhood
