

Eyes Baptized in Mercury

Trophy Scars

It's cold outside
Just like fate
It's cold right here
Where is your heart
Someone get me out of here
Alive Take my hand
Trust this smile
It's just one smile
I'm getting caught in softer parts of you
It's killing me too
It's killing me too It's cold outside
Just like steel
It's cold right here
Just like blades Someone get me out of here
Alive Take my eyes
And cauterize my heart
Because it's killing nothing
It's killing nothing
I'm getting caught in the same soft parts
Of you Watered down and feel the cool
Winter creep up your spine
These are mine, these are mine, and these are mine
This mouth bleeds Trust this, this one smile
I walked the halls one thousand years
One thousand too long
Isn't nothing the same
All of us in watered down
Dumbfounded mercury I'll trust this tourniquet again
I'll trust this tourniquet uh huh I walk the halls of a sleeping dogma Nothing amounts to anything (you said
useless)
None of this amounts to anything (I'm useless) And I'll send you a thousand apologies
Hugs and kisses
XO, XO
I'll send you a thousand apologies
Hugs and kisses, hugs and kisses
XO , mean a million apologies
XO
Hugs and kisses, Ray

Hugs and fucking kisses
