need to feel

Reflekt

Tell me what you want to be, and don't hide it from me
Tell me where you want to be, and I'll take you there
Tell me how you want to feel, don't keep it from me
Tell me how it ought to be through more than a stareShow me what you want to be, and don't hide it from me
Show me where you want to be, and I'll take you there
Show me how you want to feel, don't keep it from me
Show me how it ought to be through more than just a stareI just want to see you and I just want to hear you
And I just need to feel you
I just want to see you and I just want to hear you
And I just need to feel you, so stand upTell me who you are, tell me where you want to be
Tell me how you feel, show me how it ought to be
Take a little piece of me and hang it from the right tree
Share a little piece of me, I'll give you as a part of meI just want to see you and I just want to hear you
And I just need to feel you
I just want to see you and I just want to hear you
And I just need to feel you, so stand upCould you be my? Could you be my?
Won't you be my? Could you be my everything?Who are you? Your my everything
Who are you? Your my everything
Who are you? Your my everything
My everyTell me what you want to be, and don't hide it from me
Tell me where you want to be, and I'll take you there
Tell me how you want to feel, don't keep it from me
Tell me how it ought to be through more than a stareI just want to see you and I just want to hear you
And I just need to feel you
I just want to see you and I just want to hear you
And I just need to feel you, so stand upI just want to see you and I just want to hear you
And I just need to feel you
I just want to see you and I just want to hear you
And I just need to feel you, so stand up
