The Equalizer

Junior Boys

So stay, what for? Get lost, hit the floor 'Cause there's fire all around It's in my hands, it's out the door Springtime, you're gonna wish that we were friends That we talk, you never feel so sure again So now, there'll be no lessons, no more cures Til you get yours, baby, in the end I'll run, give way Which face, and whose name? You're falling from my eyes To the bottom, you're all the same Springtime, you're gonna wish that we were friends That we talk, you never feel so sure again So now, there'll be no lessons, no more cures Til you get yours, baby, in the end Springtime, you're gonna wish that we were friends That we talk, you never feel so sure again So now, there'll be no lessons, no more cures Til you get yours, baby, in the end
