

Black Forest

Hypocrisy

God of evil of the clustering hell
If I fade as I grave
I talked to myself for the ultimate pain
God fall in your command On the direction
The Lord will ever believe me
Several oppression
Make me prickless I command the fortress of darkness
Bring the eternal power on me On the direction
The Lord will ever believe me
Several oppression
Path of hell regressed now I walk in the darker forest
We live and regret, pounding the doom
Abounding itself from the goal
And all the blind are alone
