AnyTime

Don Diablo

House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house time

Houseâ€¦

House time is any time
And anytime is house
Come on

House time is any time
And anytime is house time
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house

House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time

And anytime is houseâ€¦

House time is any time
And anytime is house

House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house
House time is any time
And anytime is house time
