

Desperate

Vixen

There you go
Walking away like you did before
But I know
I know you'll be back,back for more
And the game
The game will go on as it was
Nothing's changed
We'll know when we're closer to loveREPEAT:
Aren't we desperate, aren't we afraid
We're just two lost and lonely people
scared to be alone again
Aren't we desperate, aren't we afraidCan't you see that there are no victims
just voluteers
We won't change
We won't change until we face our fears
We're alone
Even though we are together right now
Love remains
Just out of reach somehow
REPEATI know we can make it
Take up that look into my eyes
We'll take the future for you and I, yeah
