

Prayer

Fionnuala Gill

Let your arms enfold us
through the dark of night

will your angels hold us
till we see the light

Hon- lay down your troubled mind
The day has vanished and left us behind
And the wind soaring softly about
will soothe- so close your weary eyes

Repeat refrain

Sleep- angels will watch over you
and soon beautiful dreams will come true
can you feel spirits embracing your soul
so dream while secrets of darkness unfold

Repeat refrain twice
