well it's been all this time carrees in the factories  
with all the common waste you've sorta taken a liking to me  
well it's been all this time protecting what will come to me  
in an uncommon way  
will you arrive to me with thoughts  
so easily justifiedwell it's been all this time the shipments  
turned its back to me  
and violations make communions in the factory  
will i arrive on time my blame is on the company  
feel out the package weightrunaway i say i know i'll say runaway  
i know it's just too late  
what all did i say i know i'll say runaway  
i know it's just too late  
you can wait until i'm dead
