

Somebody to Love

Suzy Bogguss

Your mascara's runnin' and your hair is a mess
And what have you spilled on your party dress
Sittin' in the kitchen all broken hearted
Lookin' for comfort in an ice-cream carton
But all you want, all you really want Is somebody to love, you want somebody
 Oh, you've got to be strong
 It's not enough to want somebody
 Just 'cause the night is long
 You've got to be tough and hold out, honey
'Cause what you really want is somebody to love I've been to all of the places you go to
 I've danced the tango with Casanova
 The wine and the roses are so continental
 But the champagne is flat and the tux is a rental
All you want and all you really want Is somebody to love, you want somebody
 Oh, you've got to be strong
 It's not enough to want somebody
 Just 'cause the night is long
 You've got to be tough and hold out, honey
'Cause what you really want is somebody to love Yeah, you want somebody
 To tear the night apart
 Someone to love you back now, honey
That's a darn good start You've got to be tough and hold out, honey
'Cause what you really want is somebody to love
 Somebody to love
