

Find Jah

Richie Spice

When you find Jah all your troubles are over you see
When youve got love all your bills are covered for real for real

Say you feel like a dog without a bone
Just like a sling without a stone
Just like a ship without a rudder
No one to call your very own
Know no direction where to turn
Dont even know to find an answer
Just like a fork without a lift
Just like a light without a shift
And everything you do just seems to falter

When you find Jah all your troubles are over you see
When youve got love all your bills are covered for real for real

If you feel like the world is closing on ya
And all the kids depending on ya
And you start think what else you gon do
Seek you first the kingdom of Jah
And everything shall be added after
All your hardship turn to laughter
And every seed you saw shall prosper

When you find Jah all your troubles are over you see
When youve got love all your bills are covered for real for real

Dont put your trust in no man
Dont put your trust in no politician
Dont put your trust in no obiah man
Cause theyre just a part of satan scam

When you find Jah all your troubles are over you see
When youve got love all your bills are covered for real for real

Say you feel like a dog without a bone
Just like a sling without a stone
Just like a ship without a rudder
No one to call your very own
Know no direction where to turn

Dont even know to find an answer
Just like a fork without a lift
Just like a light without a shift
And everything you do just seems to falter

When you find Jah all your troubles are over you see
When youve got love all your bills are covered for real for real
