I Shiver

Robert Cray

I get the blues in the mornin'
So bad, I scare myself
My hair is turnin' gray so fast
I'm worried about my healthAnd I shiver all over, I shiver all over
I shiver all over, 'cause I ain't got you, hmmI'm burnin' with a fever
My stomach's twisted up in knots
My blood's pressure's runnin' up so high
I know it's gonna stop my heartAnd I shiver all over, I shiver all over
I shiver all over, 'cause I ain't got you, hmmI've got spots all over my body
I wear shades 'cause my eyes are red
I got a headache that just won't go away
It's a wonder that I'm not deadI got spots all over my body
I wear shades 'cause my eyes are red
I got a headache that just won't go away
It's a wonder that I'm not deadMy doctor looked at my condition
He said, "Oh, Bob, you look all a mess
There ain't a thing that I can do about you
But you can sure use a whole lot of rest"And I shiver all over, I shiver all over
I can't even sleep at night, 'cause I ain't got you, hmm
I ain't got youNo, no, no
No, no, no
No, no, no
