

# I Shiver

Robert Cray

I get the blues in the mornin'  
So bad, I scare myself  
My hair is turnin' gray so fast  
I'm worried about my health And I shiver all over, I shiver all over  
I shiver all over, 'cause I ain't got you, hmm I'm burnin' with a fever  
My stomach's twisted up in knots  
My blood's pressure's runnin' up so high  
I know it's gonna stop my heart And I shiver all over, I shiver all over  
I shiver all over, 'cause I ain't got you, hmm I've got spots all over my body  
I wear shades 'cause my eyes are red  
I got a headache that just won't go away  
It's a wonder that I'm not dead I got spots all over my body  
I wear shades 'cause my eyes are red  
I got a headache that just won't go away  
It's a wonder that I'm not dead My doctor looked at my condition  
He said, "Oh, Bob, you look all a mess  
There ain't a thing that I can do about you  
But you can sure use a whole lot of rest" And I shiver all over, I shiver all over  
I can't even sleep at night, 'cause I ain't got you, hmm  
I ain't got you No, no, no  
No, no, no  
No, no, no  
...
