# The Longing

## The New Regime

In each heart there is a longing
In each soul a desperate cry
To know if life for some true meaning
Or do we simply live an' die
Earthly pleasures and possessions
Leave the sinking spirit dry
In each heart there is a longing
Only Jesus satisfies
In each life there comes the question
Is there more than meets the eye
And what will we see of the eternal
When the well of days run dry?
So we search with so few finding

The difference between truth and lies
While in each heart there is a longing
Only Jesus satisfies
Mystery on a hillside
The purest love expressed
Guilty lips cry forgive me
In that moment I found rest
So we search with so few finding
The difference between truth and lies
While in each heart there is a longing
Only Jesus satisfies
While in each heart there is a longing
Only Jesus satisfies
