

# Killer Whales

James Vincent McMorrow

I make it hard to love me back  
I know, I know  
Just close your eyes and hold your breath  
It won't be long before  
Just like before, before I  
Just like you soSo I take a long way home  
I call you up  
Convince you it's someone else  
Somebody sure  
Cause I'm still in love  
And I'm not sleeping at night  
I'm afraid I could die without leaving a mark  
Who am I to swim with killer whales  
Who am I to wade to sea  
They say the less I know the better  
It sounds ideal to me  
Cause I'm not gonna tragic on the whale  
There's better things to be  
Counting my blessings every day  
That started immediatelySo I take a long way home  
I call you up  
Convince you it's someone else  
Somebody sure  
Cause I'm still in love  
And I'm not sleeping at night  
I'm afraid I could die without leaving a markCause I'm still in love  
And I'm not sleeping at night  
I'm afraid I could die without leaving a mark
