

Baby Steps

[Elizabeth Shepherd](#)

How perfect for you to choose
the dead of a cold winter night to come.
Little seed, on a star dusty breeze, you made your
way to me, in an essence so complete,
to rest awhile in me - watch us grow.
Two souls, one cord; this is eternity.
Counting down the days, slowing down our ways,
indifferent to this crazy pace.1 2 3 4 5 6 and 7
baby steps to take us straight to heaven.
Here or there, my love will never leave you;
little one, this life so becomes you.
Oh to retrace this tired earth's lines,
erase its shadows and heal the pain of time;
I'd give my life to carve another way
for your perfection to last another day,
but this world and me - we're bold;
and so I'll leave no truth untold.
For the gift of love, it's one small fee:
who we are in our entirety.1 2 3 4 5 6 and 7
baby steps to take us straight to heaven.
Here or there, my love will never leave you;
little one, this life so becomes you.
baby steps to take us straight to heaven
take it slow, we've got a life to do it
gratitude of mine you have no limit.
My love will never leave you,my love.
