

Masterjam

Rufus

I got a [Incomprehensible] going down
It's a party invitation, we're putting down
So come on y'all give it a chance
Get up and dance
Got to groove, get your body loose and join the band
Help spread the word about the Masterjam It's a soulful revolution that can't be beat
We'll rerun the constitution and heat your feet
So come on y'all, give it a chance
Get up and dance
Got to groove, get your body loose and join the band
Help spread the word about the Masterjam We got to wake up the world and change it all tonight
Gonna spend it around and wake it up with party lights
So forget about your troubles and live the past
And rock the country and don't look back So come on y'all give it a chance
Get up and dance
Got to groove, get your body loose and join the band
We could rule the world with the Masterjam So come on y'all give it a chance
Get up and dance
Got to groove, get your body loose and join the band
We could rule the world with the Masterjam Come on take my hand, join the band
Got to tell the world about the Masterjam
Got to tell the world, got to tell the world
Got to tell the world, got to tell the world Come on take my hand, join the band
Got to tell the world about the Masterjam
Got to tell the world, got to tell the world
Got to tell the world, got to tell the world Come on take my hand, join the band
Got to tell the world about the Masterjam
