

Everything Has Been Repaired

Beekeeper

i wanna get warm
(but i need to get cold before i can get warm)
ive broken my bones
(along with every other bone in my entire skeleton)
this coffee is cold
(and all the chinas glued, these hairlines fractures)
but its not alone
(everything here was once broken)(everything has been repaired, oh
everything has been repaired)once broken
(made stronger)
bruised apple
(tastes sweeter)does it?
