

Us Against the World

The Family Ruin

Give me; give me a reason to leave it all
Cause I'm SICK and tired of trying Just one more night to feel like this
So hold on tight I'm on my way to you Goodbye, to another lonely city
So many faces but none that I recognise Just one more night to feel like this
So hold on tight I'm on my way to you It's us against the world, we're in this together
It's us against the world, we're in this forever
No one seems to see that it's nothing like it seems
Can't you see? Can't you see?
This is nothing like my dreams
No one seems to see that it's nothing like it seems
Can't you see? Can't you see?
This is nothing like my dreams Just one more night to feel like this
So hold on tight I'm on my way to you It's us against the world, we're in this together
It's us against the world, we're in this forever Hold on tight, I won't be long
I'll be here with open arms
Hold on tight, I won't be long
I'll be here with open arms Give me a reason, to leave it all
Give me a reason
It's us against the world, we're in this together
It's us against the world, we're in this forever No one seems to see that it's nothing like it seems
Can't you see? Can't you see?
This is nothing like my dreams
