

# Other Suns

## Magic Giant

I may not know where I'll find you  
But I know I'll be there soon  
I don't need to see you to believe you  
I just know you're true  
I just know you're true You've always been a silhouette  
I've been de ja vu  
The future's in the looking glass  
So let's enjoy the view  
Let's enjoy the view In the warmth of other suns  
I will find someone  
In the warmth of other suns  
I will find someone It's a crazy hazy maze of waves, till  
You get hooked, hung up, and caught  
Even with an ocean in between us  
We still got a shot  
We still got a shot In the warmth of other suns  
I will find someone  
In the warmth of other suns  
I will find someone In the warmth of other suns  
I will find someone  
In the warmth of other suns  
I will find someone In the warmth of other suns  
I will find someone  
In the warmth of other suns  
I will find someone
