Food Chain

Eric Hutchinson

Don't let this affect the game
Every five months we act the same
But I never get used to putting you off
And no one could've scripted this
Who knows what'll come of it
I refuse to believe it was all just a waste
'Cause look around, everybody's on the food chain
Funny but from day to day we get from bottom to top
And if you get lost you start over again
But we don't ever get to, no we don't ever get to stop
I wake up in the oblivious state
Go to sleep trying to save some face
'Cause I've never been one for acting na
