

# Food Chain

## Eric Hutchinson

Don't let this affect the game  
Every five months we act the same  
But I never get used to putting you off  
And no one could've scripted this  
Who knows what'll come of it  
I refuse to believe it was all just a waste  
'Cause look around, everybody's on the food chain  
Funny but from day to day we get from bottom to top  
And if you get lost you start over again  
But we don't ever get to, no we don't ever get to stop  
I wake up in the oblivious state  
Go to sleep trying to save some face  
'Cause I've never been one for acting na
