

# Far Away

## Limp

not deserving of this you are there and i am nowhere near the feeling i =  
thought would go away has grown and is far past to late and all i think =  
about now is that you are there and i am nowhere near consolation i =  
won't take it well nothin' else and no one qualifies consolation i won't =  
take it well cause you are there and i am nowhere near here it is it's =  
waiting for us i sit alone and watch it go i want it back so bad right =  
now just one more time and then i let it go take me back i want to go i =  
want to see your face again i want to die inside again just one more =  
time and then i let it go and so it ends on promises a bitter taste is =  
in my mouth and all i think about now is that someone near is finding =  
what i want but i'm still here and you are nowhere near
