

# Lost Together

**Nathan Johnson**

You always said to listen to your hear  
Maybe you were warning me  
All that I remember is your sirens call  
And crashing on your beach  
I was in pursuit of sunken treasure  
Drifting so far off my course  
I should've seen the red sky, in the morning light  
And followed my true north  
Somewhere we got lost together  
And on this island found each other  
In a million years if ever  
I could never want another  
Be careful what you think you're wishing for  
'Cause you know it might come true  
And happily ever after is an ending  
Only written for a fool by a fool  
Somewhere we got lost together  
And on this island found each other  
In a million years if ever  
I could never want another  
Stranded on this shore  
Always wanting more  
Than I could ever give to you  
Somewhere we got lost together  
And on this island found each other  
In a million years if ever  
I could never want another  
I could never want another  
I could never want another
