

Young in This Town

[Randy Montana](#)

Advisory - the following lyrics contain explicit language:

Girl I ain't ready for that 9 to 5
I ain't ready for that every day same ol' same
That front-porch-sitting, slowed-down kinda life
Yeah, we'll save that for some other day 'Cause we only get one shot at being young in this town
(only get one shot at being young in this town)
'Cause we only get one shot at being young in this town So let's hit the road
Run through the red light
Get so gone we can't be found
Shoot out the stars
Hearts on fire
Too damn lost to turn back now
And we'll pray that the sun stays down
'Cause we only get one shot at being young in this town Wish I could make that courthouse clock stand still
Take a memory like a picture of you in that dress
Taste of your kiss and the way that feels
Wanna remember you just like this 'Cause we only get one shot at being young in this town
(only get one shot at being young in this town)
'Cause we only get one shot at being young in this town So let's hit the road
Run through the red light
Get so gone we can't be found
Shoot out the stars
Hearts on fire
Too damn lost to turn back now
And we'll pray that the sun stays down
'Cause we only get one shot at being young in this town So let's hit the road
Run through the red light
Get so gone we can't be found
Shoot out the stars
Hearts on fire
Too damn lost to turn back now
And we'll pray that the sun stays down
'Cause we only get one shot at being young in this town Being young in this town
