

# And Then Some

Amy Clawson

Wait'll I get you down on the farm?  
For a little fresh air and these lovin' arms  
City lights made your heart so tough  
You just haven't been loved enoughCountry girls got a way of their own  
Know how to love till the cows come home and then someAnd then some moon will shine  
And then some stars will find you  
Feelin' like you never felt beforeAnd then city boy, you'll see  
How sweet love is gonna be  
'Cause you'll be in some and then someWhen I get you way out here  
We'll take a little ride on the old John Deere  
Stop by the creek where the corn grows tall  
You won't wanna go back at allCountry girls got a mind of their own  
Wanna be loved till the cows come home and then someAnd then some moon will shine  
And then some stars will find you  
Feelin' like you never felt beforeAnd then city boy, you'll see  
How sweet love is gonna be  
'Cause you'll be in some and then someAnd then some moon will shine  
And then some stars will find you  
Feelin' like you never felt beforeAnd then city boy, you'll see  
How sweet love is gonna be  
'Cause you'll be in some and then some
