

A Boy From Nowhere

Tom Jones

The nights grow cold, my search for gold
Is leading nowhere
Whichever lonely road I take
It seems to go where
It's a fight to survive just until tomorrow
How can I display what I know I'm worthy of
When they turn me away The doors are closed to such as i
A boy from nowhere
But not to those who merely buy the right
To go where
They'll be met with respect, not humiliation
A man's place on earth
I have come to realize
Is decided by birth So what's the future
No matter where I go I will still belong...
In andalusia
Where we don't know where the next penny's coming from
Something's wrong I'm bound to spain, I won't remain
A boy from nowhere
There has to be a place for me
And I must go where I don't fantasize unlike a million others
Not a man alive
Had to beg or steal or fight more than me to survive So what's the future
No matter where I go I will still belong...
In andalusia
Where good honest men grow weak and the rich grow strong
Something's wrong Another dawn, another boy
A boy from nowhere
My destiny will guarantee
I'll only go where It's a fight to survive just until tomorrow
One more mouth to feed
And the way things are round here,
That's the last thing they need
