

What Goes Around

School Gyrls

Uh, School Gyrls
Let's go, hit it Jacque
You're gonna get what you asked for you know that right?
So don't dish it 'cause I'll throw it back like dynamite
You better watch where you're stepping 'cause girl with me you can't win
There's no need to compete and you know that right?
Don't be tryna step where you know you shouldn't be
Because I'm the type of girl that you know can bring the heat
So you better step back-back
Don't wanna react-act
You don't want me to lose control
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
What go around come around girl
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
Then Imma get you back
I see what you're doing so don't think you're slick
And if you come around me Imma have to trip
I got all my girls around me and they got my back
So meet me at the playground if you wanna throw back
Don't be tryna step where you know you shouldn't be
Because I'm the type of girl that you know can bring the heat
So you better step back-back
Don't wanna react-act

You don't want me to lose control
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
What go around come around girl
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
Then Imma get you back
'Cause I hear that you've been talking about me
So keep on talking then you're gonna see

I may be young but I ain't playing no games
'Cause you get burned when you're playing with flames
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
What go around come around girl
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
Then Imma get you back
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
What go around come around girl
'Cause if you tryna get me, woah
Then Imma get you back
What go around come around girl
Then Imma get you back
