

# Serious Music

## Hall & Oates

To play to get rich and die baroque is wrong  
If you write a song for God, will he sing along?  
While rows of robot symphonies read on  
Is that the way that you want it played?  
(Manuscripted memories)  
I can breathe  
(Sound with no electricity)  
I can see concentration lines on the face of serious music  
(Manuscripted memories)  
I can breathe  
(Sound with no electricity)  
You know I can see concentration lines  
On the face of serious music  
You brought a bit of jazz to the concert hall  
You won't hear violins at the Darkie's ball  
Your rhapsody in blue will outlive us all  
I wish I was there the night you played it  
  
(Manuscripted memories, sound with no electricity)  
Oh, can't you see concentration lines  
On the face of serious music  
(Manuscripted memories)  
Notes on page  
(Sound but no electricity)  
Oh, can't you see concentration lines  
On the face of serious music  
(Oh, I can't see, I can't hear)  
Manuscripted memories, sound but no electricity  
Concentration lines on the face of serious music  
(I can't see, I can't hear)  
Manuscripted memories, sound but no electricity  
Concentration lines on the face of serious music
