

Not Around

Montgomery

For once I thought I was doing it right
Threw everything I had aside
But all this time you say I could've tried
How?! When my heart's pressing against the wallsCHORUS:
I set the tone so you'd keep coming home
But you're not around, you're not around
I gave it all when you asked me for more
But then you turned it down
And now you're not around, you're not aroundI should've left at the sound of this hitting the ground
I couldn't leave, I never thought I was so naïve
I'm sure you know where I'm willing to go with this
Don't push it further, just try to rememberCHORUS:
I set the tone so you'd keep coming home
But you're not around, you're not around
I gave it all when you asked me for more
But then you turned it down
And now you're not around,
No, you're not aroundCHORUS:
I set the tone so you'd keep coming home
But you're not around, you're not around
I gave it all when you asked me for more
But then you turned it down
And now you're not aroundCHORUS:
I set the tone so you'd keep coming home
But you're not around, you're not around
I gave it all when you asked me for more
But then you turned it down
And now you're not around,
And now you're not around
