Solar Plexus

Solar Plexus

I am breathing in dirt
God, I need some sleep
Now I bleed life out of you
Can't sit still and here I am
I amI, i, burn, burn
I, i, burn, burn
I wish I get more
Money for more
I wish I get more
Money for moreGrieving now for your love
Baggage at the door
(don't know)
Put your hand insideI, i, burn, burn
I, i, burn, burnYou are a bitch
You suck shit
Fucking suck
Hope you're in luck
Fucking luckI, i, burn, burn
I, i, burn, burnBaby (something) sweet eyes
Missed her look in mine so bright
Shocking things that stay with you
Spinning my mill
Maybe then it's safe
Black as rage and (something)
Counting seconds in silence
Time is waiting to leave my head
