

All Roads Lead to You

Steve Wariner

Blacktops burning, heat waves rise
Pick up my shove, I put my back to the grind
Got another job in Flagstaff and this ones paid I work the freeway, the pays all right
But I cant get you off my mind
'Cause every stretch of highway ends the same All roads lead to you
I thought I could forget but its now use
Your memory is there wherever I go, whatever I do
All road lead to you The boss said one more mile to go
The last one always goes so slow
If I could just turn off my mind Id be all right But I keep wondering what went wrong
Whose holding you now that Im gone
Theres not a minute that goes by you dont cross my mind All roads lead to you
I thought I could forget but its now use
Your memory is there wherever I go, whatever I do
All road lead to you The suns getting to me
I think I see you in every car that passes by
No way around it Ill always love you
Any fool can read the signs All roads lead to you
I thought I could forget but its now use
Your memory is there wherever I go, whatever I do
All road lead to you All roads lead to you
I thought I could forget but its now use
Your memory is there wherever I go whatever I do
All road lead to you All roads lead to you
I thought I could forget but its now use
Your memory is there wherever I go whatever I do
All road lead to you
