Life Ain'T Easy

Cleopatra

Life ain't easy, gonna change
Don't just listen, think about it
Life ain't easyWhen I see those people sitting hungry in the street
I put myself in their shoes, finding safer places to sleep
And people just walk past them when they know there's something wrong
When all I wanna know is why this something's going onBecause life ain't easy and how we are
Is gonna change to make this world a better place
Don't just listen, oh, you've gotta take it in
Think about it and then we can beginLife don't last forever, and forever isn't long
So take your chance in life at the moment, you can hear this song
No use just thinking about what tomorrow brings
You've got to lift your head up high and do the right thingBecause life ain't easy and how we are
Is gonna change to make this world a better place
Don't just listen, oh, you've better take it in
Think about it and then we can beginLife ain't easy
Oh, oh, no, no, no
It ain't easy, it ain't easyWhat I'm telling you is
Life ain't easy, gonna change
Don't just listen, think about it
Life ain't easyLife ain't easy, gonna change
Don't just listen, think about it
Life ain't easyLife, just ain't easy
Oh life, just ain't easy
Life, just ain't easy
Oh life, just ain't easy
Oh, life
