

Buttercup

Brad

And I love to tie you up and you love to let me down
We both try to cover it up with a sound
You ain't my buttercup, I ain't your little fool
I know that ain't a part of the deal, we're through
Let me tell you It's just a matter of time, it's just a matter of time
And I'd love to share the cost, butterfly
The reason why we need to fly high away, yeah
It's just a matter of time, it's just a matter of time
It's just a matter of time, it's just a matter of time Before we're thrown back in the wheel
Before we're thrown back in the wheel
Baby, I'll be hard pressed
Maybe we're more simple too
Ain't a region of water Before we get back in the wheel
Before we get back in the wheel
Before we get back in the wheel
Before we get back in the wheel
