

# Wings Of The Storm

## Whitesnake

On and on, the road goes on  
And it'll go on forever  
Time will show if you and I  
Will walk that road together Through fire and water, ice and snow  
Heaven above us, and Hell below  
Holding on, trying to walk the line  
With sweet temptation running close behind I'm talking 'bout love, ooh, love  
Like a fire forever burning  
A flaming heart that's yearning, more and more  
A love to keep us warm  
On the wings of the storm Everyday and every night  
I keep hoping it'll be all right  
Trying to leave the past behind  
Still looking for some peace of mind But, destiny brought us together  
And promised us a time that would last forever  
Though it's all been said before  
It's the kind of love worth fighting for I'm talking about love, ooh, love  
Like a fire forever burning  
A flaming heart that's yearning, more and more  
A love to keep you warm  
On the wings of the storm On and on, the road goes on  
And it'll go on forever  
Time will show if you and I  
Will walk that road together I'm talking about love, ooh, love  
Like a fire forever burning  
A flaming heart that's yearning more and more  
A love to keep us warm  
On the wings of the storm  
My love will keep you warm  
On the wings of the storm
