Nothing But A Thang

Brian Mcknight

(Verse)
Have you noticed when we touch
I can?t seem to get enough
The more that we spend apart I?m on the sweet waves
I want to be with you in so many ways
(Chorus)
The love we make is more than just for real
It?s more than what we feel
What we have is nothing but a thing
Nothing but a thing
We don?t have to try
Morning to all night
What we have is nothing but a thing
(Verse)
Baby, come to me
Take me as I am
And take whatever you want from me
I don?t give a damn
(Verse)
Close your eyes, feel me
Imagine love so deep
I take my time, you?re super fine
This is what I?ll keep
(Chorus)
The love we make is more than just for real
It?s more than what we feel

What we have is nothing but a thing
Nothing but a thing
We don?t have to try
Morning to all night
What we have is nothing but a thing
(Verse)
We?re caught up in the moment
2 luck stars about to shine
When it?s feeling like you never felt
Then tears fall from your eyes
And all about acknowledgement of how you make me feel
It?s evident that this is not a dream, it?s for real

(Chorus)
The love we make is more than just for real
It?s more than what we feel
What we have is nothing but a thing
Nothing but a thing
We don?t have to try
Morning to all night
What we have is nothing but a thing
Nothing but a thing
More than just for real
More than what we feel
What we have is nothing but a thing
Nothing but a thing
We don?t have to try
Morning to all night
What we have is nothing but a thing
