Around You

Missy Higgins

The only time we've ever danced,
Was in my dream the other night.
Your hands were rough yet, soft enough
And you wore me, like cotton cloth
The room we danced in, knew no time
Life only measures within your eyes
And the silent love blew, all hovering
Tiny birds sang, perfectly
Around you.
Around you, what a nice night
Around you, I stay
I don't think you saw me,
Or are you?
'cause looks were of another time,
Well a shadowed view

We does tiptoe gently from side to side
Let worthless rhythm be our guide
Around you.
Around you, what a nice night
Around you, I stay
'cause in you I found out that you're like in steel
The sky was into ground, the things get too real
Around me oh oh oh...
Around you, what a nice night
Around you, I stay
And when the world came, tumbling in,
And morning light shined on tired skin
I took a second before I began to grin
As I remember, I had just bend
