

# Alive (Biometrix Remix)

## The Dirty Youth

See the girl, eyes are wide  
So naive, dead inside  
Would you cry for her  
Would you take her pain away  
Would you die for her  
Would you brighten up her day No more regrets, no more regrets  
I can't forget These could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight  
Dancing like its all right  
Celebrating this night  
To feel so alive  
I feel so alive I don't know how it feels to be so insecure  
That you take out your problems on cocaine and beer  
You say to yourself that your really okay  
It's killing me now just to see you this way  
Now I think to myself is this fake is this real  
All the diamonds and rubies and lies you conceal  
Are you lost in yourself, are you feeling confused  
Reality sinks and you know you've been used No more regrets, no more regrets  
I can't forget These could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight  
Dancing like its all right  
Celebrating this night  
To feel so alive  
I'm feelling so alive So, I've gotta tell you to, wrap your arms around your soul  
Wake up, now  
Break out, now  
You will lose yourself and everything No more regrets, no more regrets  
I can't forget These could be the best days  
We're having it all our way  
Saying things we must say  
To feel so alive  
Its brighter than the sunlight

Dancing like its all right  
Celebrating this night  
To feel so alive  
I'm feeling so alive I'm feeling so alive  
I feel so alive  
I'm feeling so alive  
I feel so alive
