

Pendulous Threads

Incubus

Mend this careless thread, its gone askew
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)Or pull and see how much we can undo
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)On a burning bridge
Your options are minimal at best
Depending on where youre standing
And how much breath is in your chestIf it came down to it
Would you high-tail home and hide?
Or dance on fire and enjoy the rideMend this careless thread, its gone askew
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)Or pull and see how much we can undo
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)At the heart of it all
That innermost, your fiery core
Theres an amassing armor
Its building you into a boreLifes a match in a gas tank
Dont ever mourn the ebbing tide
Just dance on fire
And enjoy the ride, heyMend this careless thread, its gone askew
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)Or pull and see how much we can undo
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)Hey, hey, hey, hey, hey, hey, heyHey, hey, heyMend this careless
thread, its gone askew
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)Or pull and see how much we can undo
(Thread on my sweater is pendulous, step back and pull it
Watch it unravel faster than a speeding bullet)
