Center of Attention

Alove for Enemies

Why do some of you think you're better than everyone who is around you?
We all live, love, bleed, die
Why do some of you think you're better than everyone who is around you?
Your pride will bring you downYour pride will bring you down, keep your head up in the clouds
I'll knock your fight back to the ground
Your pride will bring you downAnd now you'll learn, that you're no better than me
And I'm not better than you
You'll learn this all right nowChristian or not, you're forgiven
